[Theodora Scarato,MSW - Local Government and Community Actions](#)

- Science behind health effects from 5G and wireless
- How federal government agencies have failed us
- Local government pushback strategies

Theodora Scarato is the executive director of Environmental Health Trust (EHT), one of the leading scientific environmental health organizations working on 5G, small cells and cell phone radiation. EHT publishes research, presents to policymakers, and develops educational campaigns on these focus areas. EHT maintains the world's largest database on protective international policy related to electromagnetic radiation. Scarato brings her background as a clinical social worker to EHT, having directed

[Devra Lee Davis, PhD, MPH -Science on 5G and Wireless Radiation](#)

- Science the industry doesn't want you to know
- Impact of millimeter waves on your health
- Exposing the industry playbook

Dr. Devra Davis is president and founder of the Environmental Health Trust, and is an award-winning, internationally renowned scientist and founding director of the Board on Environmental Studies and Toxicology of the National Academies of Sciences. She is also a current visiting professor of medicine in Israel and Turkey. Davis is the author of *When Smoke Ran Like Water* (a National Book Award Finalist), *The Secret History of the War on Cancer*, and *Disconnect—The Truth About Cell Phone Radiation, What Industry Has Done to Hide It, and How to Protect Your Family*.

[Sharon Goldberg,MD - Science About Wireless and 5G](#)

- EMFs, diabetes, mental illness and suicide
- Refuting industry and government statements
- Common misconceptions about EMFs

Sharon Goldberg, MD, is an internal medicine physician with an interest in the health effects of electromagnetic fields. Her background includes 15 years as an academic hospital medicine physician and medical educator responsible for the training of medical students and resident physicians at teaching hospitals in New York and at the University of Miami. Dr. Goldberg's clinical interests include dietary, lifestyle and environmental modifications in complex chronic disease. She has co-authored publications in the fields of dietary supplementation, autonomic nervous system assessment and nutritional epidemiology. She is also an editorial board member of *Electromagnetic Biology and Medicine*.

Martin Pall, PhD - How Wireless Causes Harm (Part 1)

- 9 different areas of harm from wireless
- Chemical process behind the harmful biological effects
- Why 5G is more dangerous than its predecessors

Martin Pall, PhD - 5 Most Critical Areas of Harm (Part 2)

- Most startling ways 5G damages your health
- High urgency to solve this meta-problem
- Possible role of EMFs in wildfire ignition

Martin Pall is professor emeritus of biochemistry and basic medical sciences at Washington State University (WSU). He earned his PhD in biochemical genetics from Caltech, and was on the faculty of WSU for many years before "retiring" in 2008. Since then he has published numerous papers on wireless radiation effects. Dr. Pall's research has focused most on 9 different categories of effects of wireless radiation: neurological and neuropsychiatric effects, cellular DNA damage, cell death, endocrine effects, cancer, cardiac effects, very early onset Alzheimer's and other dementias. One of his most valuable contributions is describing, in detail, the main mechanism by which these effects are produced.

Magda Havas, PhD - Extensive Biological Effects of EMFs and 5G

- Rise of "electro-hypersensitivity"
- Impact of EMFs on your health
- Simple solutions to protect your home

Dr. Magda Havas is professor emerita at Trent School of the Environment and Centre for Health Studies at Trent University in Peterborough, Canada. She does research on the biological effects of electromagnetic pollution and on the beneficial effects of electrotherapies. She is co-author of Public Health SOS: The Shadow Side of the Wireless Revolution. Dr. Havas is internationally recognized for her early work on acid rain and metal pollution and for her current research in the area of electromagnetic pollution and electromagnetic therapy.

Claire Edwards - Unlocking Hidden Potential of the 5G Crisis

- UN responses and other governing agencies
- Propaganda programs (and how to counter them!)
- 5G as a community-catalyzing event in our world

Claire Edwards worked for the United Nations as an editor and trainer in intercultural writing from 1999 to 2017. She warned the UN Secretary-General about the dangers of 5G during a meeting with UN staff in May 2018, calling for a halt to its rollout at UN duty stations. She edited and co-authored the International Appeal to Stop 5G on Earth and in Space

Cece Doucette - Protecting Our Children

- How to educate elected and school officials
- Overcoming communication barriers and fears
- Connecting with community members and leaders

With a master's in technical and professional writing and a bachelor's in communication studies, Cece Doucette is a technical and professional writer by trade, who helped the first public school in the United States adopt Best Practices for Mobile Devices.

[Raymond Broomhall,LLB, GDLP - How 5G Sites are Being Blocked and Removed \(Part 1\)](#)

- Step-by-step legal process
- The "Achilles heel" of the telecom industry
- Connecting with community and creating change

[Raymond Broomhall ,LLB, GDLP - How 5G Sites are Being Blocked and Removed \(Part 2\)](#)

- Templates to prevent 5G in your community
- Step-by-step guide to Ray's legal action process
- Organizing your community to fight

Raymond Broomhall is a licensed, practicing barrister in Australia and Tasmania who is getting results dealing with and stopping 5G. He specializes in "out of the box" legal approaches, is in high demand throughout the world for his work on electromagnetic radiation issues and is considered to be one of the leading legal advocates in this field.

[David Greenfield ,PhD- Addicted Society Tech Addiction and 5G](#)

- How to protect children from screens, VR and gaming
- Coming to terms with tech addictions
- Awareness of "addictive-by-design" technologies

Dr. Greenfield is the founder and medical director of The Center for Internet and Technology Addiction and an assistant clinical professor of psychiatry at the University of Connecticut School of Medicine. He is a leading authority on process/behavioral addiction medicine and author of numerous articles/chapters on virtual addiction which, in 1999, were an early warning regarding the world's growing internet addiction problem.

[Raphael Mahaim - Regional Governments Standing Against 5G](#)

- Why the Swiss are banning 5G
- Industry response to government resolutions
- Educating government officials

[Ronald Melnick, PhD - Clear Evidence of Cancer, The 30M NTP Study](#)

- Findings of the U.S. National Toxicology study
- Cancer, tumors, heart problems and DNA damage
- Why is government ignoring this landmark study?

Ronald L. Melnick, PhD, is an independent consultant and was a senior toxicologist for 28 years in the National Toxicology Program (NTP) at the National Institute of Environmental Health Sciences (NIEHS), part of the National Institutes of Health, leading the design and interpretation of numerous toxicity and mechanistic studies on environmental and occupational chemicals. He led the design of the NTP's Toxicology and Carcinogenesis Studies of Cell Phone Radiofrequency Radiation in Rodents. Dr. Melnick has served on numerous scientific review boards and advisory panels, including those for the Environmental Protection Agency and the WHO's International Agency for Research on Cancer (IARC), which classified RFR as a possible carcinogen in 2011. Dr. Melnick spent one year at the White House Office of Science and Technology Policy working on interagency assessments of health risks of environmental agents.

[Max Igan - 5G and the Spiritual Crisis of Humanity](#)

- How geopolitical structures use fear to control
- Legal steps to block and remove 4G/5G installations
- Embracing the opportunity for awakening

Max Igan is a researcher, radio host and film-maker from Queensland, Australia. He spent much of his life as a traveling musician and is now a popular speaker at international conferences and on radio shows. With a large YouTube following, Max produces "dot-connecting" videos which support people's learning of the bigger picture in our world and thoughtfully question the official narratives. His films include *The Awakening* (2008), *The Calling* (2009) and *Trance-Formation* (2012).

[Sayer Ji - 5G and the War on Consciousness](#)

- Satellites and 5G: what are the facts?
- Propaganda and censorship tactics
- Threats to freedom of choice and natural medicine

Sayer Ji is the author of *REGENERATE*, a natural health and health rights advocate, and the founder of GreenMedInfo, the world's largest open-access natural health database.

[Satyen Raja - Being a Warrior Sage Next-level Activism](#)

Satyen Raja is known as the private transformational mentor, advisor and confidant to the powerful and influential. A remarkable living synthesis of eastern wisdom and western practicality, Satyen combines the power of the warrior and wisdom of the sage to inspire audiences and leaders worldwide into their highest impact and personal fulfillment. You'll learn more about being a "warrior sage" in this incredible interview, which you can then apply to next-level activism and reality transurfing.

[Kevin Mottus - Complete Regulatory Failure of 5G](#)

- Why isn't government protecting people?
- How the FCC is a "captured agency"
- Most effective actions you can take

Kevin Mottus was a 2018 California State Senate candidate and a 2014 U.S. House of Representatives candidate, who serves as the outreach director for the California Brain Tumor Association. He focuses on the health and safety issues associated with the 5G wireless technology roll out, and has been traveling to Washington, DC, for several years, educating elected officials on how health and safety can be restored to areas of wireless radiation exposure.

[Jerry Day - "Smart" Meters and Their Hidden Agenda](#)

- Link between 5G, "smart" meters and IoT
- 4 main concerns (you should know about!)
- Powerful tips in the fight for our rights

Jerry Day is an Emmy-winning television producer, writer, host and activist. He operates EMFhelpcenter.com for people with electromagnetic sensitivity and damage, and injuries caused by electronic utility meters.
